Steven W. Schmitt, CFP®, MBA First Vice President Investment Officer Accredited Domestic Partnership Advisor
The Schmitt-Young Investment Group of Wells Fargo Advisors CA Insurance License #0G61253

This workshop is a continually evolving examination of the special problems and unique opportunities for the LGBT community! The persistent lack of Federal recognition of LGBT partnerships creates widespread disadvantages for all members of the community, regardless of ones relationship status or economic position. The introduction of state-level recognition via civil unions, domestic partnerships and state-specific marriages has further complicated and convoluted the protections offered to all members of the community.

During this unique event, Steven W. Schmitt, and Kyle D. Young, of the Schmitt-Young Investment Group of Wells Fargo Advisors, will help to clarify and define the highlight several of the critical challenges facing LGBT individuals while offering techniques to reduce or fully eliminate each challenge.

This is an event you do not want to miss! This workshop was a big success at AVMA in St. Louis. You are invited to bring friends and the workshop is free. Non-members welcome!
